Pins.h - C header file that contains all info on pins

Sensors.cpp - Our sensors code

interface - Code for display

Main.ino - Uses libs and pins.h to "make the code work"

./Lib

- ↳ Libraries

Separate folder for 3rd-party libraries

Overview

click wheel

- Wind data
- Sun data
- Hydro data
- etc.

For now, even though it's super bad for our storage media, stream data to it constantly

Note: This is more for v2
